Subject: Please follow through on Deer Remediation

Dear Mayor Kate, Thank you and the village board for holding the meeting on the Deer Remediation Plan last night. As someone who has had to replant endless "deer resistant" perennials, rebuild legal-height fences that the deer merely trample, pull ticks off dogs, worry about a grandchild picking up disease from deer feces in our yard, been threatened by an aggressive 12-point buck while out running, and sustained more than \$1,500 in damage from a car-deer collision, I heartily support the village's efforts to reduce the deer population through culling and sterilization. I believe the net and bolt procedure would be effective while mitigating the danger of firearm use in populated areas. But ANY solution that involves drastically reducing deer numbers has my full support and is critical for the health of the Cayuga Heights ecosystem. Please act to reduce the deer population drastically and do it as soon as possible. Thank you.
