Hello,

As a resident of Cayuga Heights, I am writing to express my dismay and opposition to the proposed Net and Bolt solution regarding the deer in Cayuga Heights. I implore the mayor and board to continue considering more humane options -- sterilization, fence building and even allowing hunters, perhaps experienced bow hunters, into the area to thin the herd -- in their search for answers to this complicated question. From what I have read about it, Net and Bolt seems especially cruel and draconian.

If the deer are exterminated, I do hope a way will be found to distribute the venison to the needy in our community.

Thank you for your time and consideration.
