Dear Kate Supron, Mayor,

I am completely shocked that your community is planning to engage in “net and bolt” practice in order to slaughter deer. This is an illegal practice and has been declared inhumane by veterinarians and animal rights organizations. I live in a neighborhood where deer do roam freely through woods and backyards. They are gentle creatures that eat only plants and they deserve to be treated in a humane way. I am writing to protest your community being allowed to break the law and behave in such a savage manner.

I can only hope that the people of your community choose to obey the law and behave in a way that does not inflict fear and abuse on the deer population.

[REDACTED]

Catherine Drew
